PRAVEEN KUMAR MUSHAM

AI & Data Science Graduate

+91 7386003436 | mushampraveen1@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science graduate with internship experience in data analytics, AI fundamentals, and CRM operations. Knowledge of Python, Java, JavaScript, SQL fundamentals, machine learning, data analysis, and data visualization. Experienced in data preprocessing, exploratory data analysis, technical project development, documentation, and operational coordination. Familiar with Power BI, Tableau, Excel, Git, GitHub, and Figma. Strong analytical thinking, problem-solving, communication, and adaptability, with an interest in applying technology and data-driven solutions to real-world business problems.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript
Data Science & Machine Learning: Pandas, NumPy, Scikit-learn, Matplotlib, Data Preprocessing, Exploratory Data Analysis, Classification, Model Evaluation
Data Analytics & Visualization: Microsoft Excel, Power BI, Tableau, Data Cleaning, Data Visualization, Reporting
Web Technologies: HTML5, CSS3, JavaScript, Responsive Web Design Fundamentals
Databases & Concepts: SQL Fundamentals, DBMS Fundamentals, Object-Oriented Programming
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Zoho CRM, Figma, Canva
Professional Skills: Analytical Thinking, Problem Solving, Communication, Documentation, Team Collaboration, Time Management

INTERNSHIP EXPERIENCE

Zoho CRM Operations Intern | WE HUB, Hyderabad *Jan 2026 – Feb 2026*

Worked with Zoho CRM to support operational activities, maintain organized records, and ensure information accuracy. Assisted with CRM data management, documentation, workflow monitoring, and process coordination. Gained practical exposure to business applications, structured workflows, and digital operations.

Data Analyst Intern | Elevate Labs *Apr 2025 – May 2025*

Worked on data analytics projects using Python and Microsoft Excel. Performed data cleaning, preprocessing, validation, and exploratory data analysis to organize datasets. Used analytical techniques and visualizations to identify patterns and support reporting activities.

Foundations of AI Intern | Microsoft – EduNet Foundation Initiative *Apr 2025 – May 2025*

Completed a four-week internship focused on Artificial Intelligence fundamentals and practical applications. Developed foundational knowledge of AI concepts through structured learning activities and strengthened technical understanding, independent learning, and problem-solving abilities.

ACADEMIC & TECHNICAL PROJECTS

LLVM-Based Object File Obfuscation Tool

Worked on a compiler-level object file obfuscation project involving instruction substitution, control-flow alteration, and opaque predicates. Explored program transformation techniques and compiler-related workflows, strengthening logical reasoning and technical problem-solving.

GitHub: Project Repository

Disease Prediction Using Machine Learning

Developed a machine learning project using Python, Pandas, NumPy, and Scikit-learn. Applied Logistic Regression and Decision Tree classification techniques. Worked on data preprocessing, model development, and evaluation.

GitHub: Project Repository

Line Follower Robot

Developed an Arduino-based line follower robot using IR sensors and motor control. Worked on sensor-based navigation, hardware integration, testing, and debugging.

GitHub: Project Repository

Virtual Bus Pass App

Designed a mobile application to help commuters report lost and found items by connecting people who lost belongings with those who found them. The application aims to simplify item recovery through real-time notifications and claim matching.

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence and Data Science *2022 – 2026*
Methodist College of Engineering and Technology, Hyderabad
CGPA: 7.8/10

Intermediate – Gouthami Junior College, Nalgonda *2020 – 2022*
CGPA: 8.1

Secondary School Certificate – New Little Flower High School, Nalgonda *2019 – 2020*
CGPA: 9.8

CERTIFICATIONS

Data Analysis with Python – IBM
Machine Learning Using Python – NIELIT
Deloitte Data Analytics Job Simulation – Forage
Tata Data Visualisation: Empowering Business Insights – Forage
Generative AI / OpenAI GPT - Infosys Springboard

ADDITIONAL INFORMATION

Location: Hyderabad, Telangana, India
Employment Status: Recent B.Tech Graduate
Career Interests: Artificial Intelligence, Data Science, Data Analytics, Business Analytics, Software Engineering, and Technology Operations.

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge.
